S O L A R - A G R I C U L T U R E - T R A I N I N G

How food and Energy projects will advance the national objectives:

- Poverty alleviation
- Job Creation
- Infrastructure development
- Capacity building and training
- Social upliftment
- Land redistribution
- Energy provision on a sustainable level

How will we assist the mining sector by advancing the national objectives?

Empowering local communities through:

- Empowering the community with electricity provision
- Empower the local community by training in Agriculture
- Empower the local community by training in Renewable energy generation
- Empower the local community by training them in business skills
- Empower the local community by sustainable job creation opportunities

Assisting the mines with ground rehabilitation through:

- Land at the mines that needs to be rehabilitated, to be used for renewable energy and agriculture
- A new approach to land rehabilitation together with community empowerment through skills development and training.
